Suit up for a mission to the International Space Station or train for a landing on the moon! Space Camp® is the ultimate educational experience that illuminates real-world applications of science, technology, engineering and mathematics.

Day 5

Space Camp

Students work as a team and confront mission scenarios that require dynamic problem solving and critical thinking — 21st century learning skills required in the workplace. Throughout the week, students are immersed in astronaut training techniques using equipment adapted from NASA’s astronaut program. They learn about space hardware, enjoy an educational water activity and experience a spaceflight mission while learning about aerospace career opportunities. The curriculum includes an educational movie in the National Geographic Theatre.

Day 6

Space Camp

Train like an astronaut on the 1/6th Gravity Chair, the Five Degrees of Freedom simulator and the Multi-Axis Trainer. Construct and launch your own model rocket. Learn what it’s like to live on board the International Space Station. Develop team-building and communication skills in an aquatic activity.

Day 7

Space Camp

Discover the newest rocket that will carry NASA astronauts to Mars. Launch on simulated missions to the International Space Station and beyond. Use technology to design and construct a futuristic Martian colony. Launch on simulated missions to the International Space Station and beyond. Compete in camp-wide Challenge nights.
